About Me

Python Backend Developer with 5 years of professional experience designing and developing scalable backend systems and RESTful APIs using Python frameworks such as Django, Django REST Framework (DRF), and Flask. Strong expertise in SQL database design, query optimization, and performance tuning with PostgreSQL and MySQL. Experienced in building secure authentication and authorization systems, integrating third-party APIs, and designing maintainable backend architectures. Proficient with Docker, Git, and deployment workflows, and skilled at solving complex backend challenges while delivering high-performance and scalable applications.

Experience

Jul 2023 – Dec 2025

Python Developer

Panasa Technology Pvt. Ltd. | Kochi

- Engineered scalable REST APIs using Django with clean architecture and modular design.
- Optimized ORM query performance, reducing redundant database hits and improving application efficiency.
- Integrated external services and cloud storage into production workflows to enhance system capabilities.

Dec 2020 – Mar 2023

Software Developer

Techwingsys | Kochi

- Built secure authentication flows and RESTful APIs using Django and Django REST Framework.
- Collaborated with frontend teams to align API structure and delivery, ensuring seamless integration.

Sep 2019 – Apr 2020

Associate Software Developer

Riss Technologies | Kochi

- Built and maintained REST APIs for web applications.
- Worked with Django ORM and SQL for database operations.

Notable Achievements

- ★ Engineered scalable REST APIs using Django with clean architecture and modular design for production workflows.
- ★ Enhanced ORM query performance, reducing redundant database hits and improving application efficiency.

Projects

Neptik

Python Developer

Key Technologies: Tech Stack: Python, Django, DRF, MySQL, Celery, Redis, SMTP

- Designed and implemented an email outreach engine that automates campaign scheduling, tracking, and rescheduling across Gmail/Outlook and other providers.
- Built timezone-aware scheduling with randomized delays and multi-sender load distribution to improve deliverability and avoid spam detection.
- Automated queue management to reschedule missed/failed emails and ensure continuous campaign execution.

SEND2

Python Developer

Key Technologies: Tech Stack: Python, Django, DRF, PostgreSQL

- Developed a real-time price comparison app for international money transfers.
- Designed to compare remittance service rates across providers to help users save time and money.
- Empowered users with transparency in remittance costs and faster selection of the best service.

Dialect-TASC Workflow

Python Developer

Key Technologies: Tech Stack: Python, Django, DRF, PostgreSQL

- Designed and developed an automated workflow engine for efficient task scheduling, assignment, and execution.
- Implemented Role-Based Access Control (RBAC) and background task handling.

Virtual Health App

Python Developer

Key Technologies: Tech Stack: Python, Flask, MySQL,HTML,CSS,Javascript

- Implemented backend system to enable secure appointment scheduling and patient-doctor communication workflows.

Skills

Backend Technologies : REST API Development,Celery ,Redis , Authentication (JWT, OAuth)

DevOps & Tools : Docker, Git, Jenkins, CI/CD, AWS, Linux, Postman

Languages : Python

Frameworks : Django, Django REST Framework (DRF),Flask

Databases : PostgreSQL, MySQL ,DynamoDB

Education

Master of Computer Applications

2019

MG University, MACFAST-Thiruvalla

CGPA: 7.9

Bachelor of Computer Applications

2017

MG University, PMG-Thiruvalla

CGPA: 7.5

HSE – Science Kerala, MTHSS–Venmoney CGPA: 8.25	2014
SSLC Kerala, JMHS–Kodukulanji CGPA: 9.0	2012

Languages

English, Malayalam

Accomplishments & Involvements

Certifications

- Data Science Certification
- Google Fundamentals of Digital Marketing (Google)
- AWS Services Fundamentals (Amazon Web Services)
- Python Django 101
- Microsoft Copilot Studio (Microsoft)
- Scientific Innovation for Sustainable Development

Awards

- SEND2–Launch Recognition Award
